### **Photographs and illustrations:**

All vintage photographs used in this document were obtained either from the internet or from the publication "Transportes na Madeira" published by Direccao Regional dos Assuntos Culturais.

Since Vicente Gomes da Silva (1827-1906) was the only person on the island at the time with the equipment to take photographs I will assume him to have been the legal copyright owner. According to UK law photographs are deemed to be in the public domain 70 years after the death of the original holder.
