Nativity Scene

Twelve fibre figures are integrated in a traditional scene, with decorative objects, fabrics and flowers, predominantly in white and gold. The nativity scene gathers trees and a large panoply of regionally produced flowers and plants which makes up the setting, as well as a small house made of wood and mats, depicting the birthplace of Baby Jesus.

As a whole, this project reflects the deep-rooted regional tradition of the creative construction of the nativity scene.

**Children's Christmas
Municipal Garden**

All of the Municipal Garden's decoration is dedicated to children, featuring a set of elements of a child's imaginary Christmas.
